

Is home health right for you?

- *Have you been diagnosed with a new illness?*
- *Has your medication changed recently?*
- *Were you hospitalized recently?*
- *Is it difficult to leave your home for medical appointments?*
- *Do you require skilled nursing services?*
- *Do you require therapy services?*
- *Do you find daily activities difficult to accomplish?*
- *Would you rather be cared for at home, whether that's a private residence or an Edgewood community?*

If you answered yes to any of these questions, then home health may be right for you. Talk to your physician or call us today for more information.

Our Philosophy

We are passionately committed to making a difference in people's lives by providing service of the highest quality and value while promoting health, independence, and whenever possible, significant improvement; all in the convenience of each individual's home setting. We believe that each individual's health, both physical and mental, is paramount to their success in life. Therefore, we believe in bringing specialized quality and value services to nurture and rehabilitate individuals needing therapeutic care.

Your life simplified.

Home Health

Patient services are provided without regard to race, color, religion, age, gender, sexual orientation, disability (mental or physical), communicable disease or place of national origin.

 **CaringEdge**

Home Health - Our Place or Yours

We all expect to be in good health (also known as “that will never happen to me” syndrome), until we’re not. But let’s say you find yourself preparing for upcoming surgery (or recovering from recent surgery), battling an extended illness or just in need of some additional specialized care to manage your health needs; do you have a plan? It’s not really a surprise that many people don’t plan for such circumstances, even well into their golden years; no one wants to admit they may not have a clean bill of health anymore. The good news: if any of these circumstances sound familiar, you could be a perfect candidate for CaringEdge Home Health. The **great** news: these services are delivered in your home, whether that’s a private residence or your apartment at one of our Edgewood communities AND your Medicare can cover part of the cost! *

Dedicated clinicians will assess your needs and goals, as well as your environment and work with you to help you reach your health goals. We will work closely with your doctor to give them the most current picture of your progress, and help you during any change in your condition; it’s truly a team effort to ensure your best outcome is achieved. CaringEdge Home Health can provide:
